Not to doom, but today is the day you figure out that Pence has been a traitor all along after he counts the votes for Biden. This is also the day you figure out that you can exempt yourself from paying taxes on your W4 just put in 99 exemptions. Starve the bastards of their money.

The government will never receive another cent from me, if they are going to act like this. They have become the enemy, to the point that it is undeniable.

If they overthrow Trump, then it's WAR.

 20 man guerilla campaign

Agreed. It needs to be a true COIN operation. Civilian and Military assets working together, on a massive scale.

The military is almost completely on our side except for a few cucked generals that can be removed...and Afghanistan has proven that 20 man guerrilla groups are actually very effective (hence the reason we are still there)

Yes, there does need to be large scale organization if anything will be sustained. The military is at least 60% pro Trump (see Pew research poll), and that number is probably low because people don't like to 'out themselves' as Trump supporters in polls...Did you see the Army vs. Navy game this year? The crowd went nuts for Trump. I trust a natural out pouring of approval like that more than polls and surveys which can be easily manipulated.

▼ Mike Pence was a Koch Brothers stooge. He was insurance against a MAGA rebellion. Read Jane Meyer's book "Dark Money". The Kochs own Pence. He's run several of their initiatives. They funded his governor race. The Kochs are now allying with Democrats and sabotaging the Republicans. Charles Koch has recently said that his biggest mistake was blindly funding Republicans. He's now doing outreach to Democrats. He was just in the news saying that "He's there to stamp out Trumpism forever". When you follow the money trails and see who funded Pence and why he was installed on Trump's ticket, his actions today become dreadfully predictable.

▼ Good fucking lord with this blackpill shit.

All of you realize Trump didn't just come out of thin air, right? It's not like a savior was dropped by the heavens in our time of need, as much as it may seem sometimes. ▼

obongo "Change we need" horseshit, which morphed into the Tea Party movement and became the base that elected Trump.

They can't sew everything back up into a nice neat little bow. This whole debacle with impeachments and election fraud is them desperately trying, and they're doing horribly at it which is just waking more people up.

[permalink](#) [save](#) [report](#) [block](#) [reply](#)

▲ [theoldgrinch](#) 3 months ago +24 / -0

24 ▼ It's not really a blackpill. It's a call to arms. There will never be an elected anti establishment person again if they are allowed to take the presidency. Trump happened because the establishment was negligent. Their guard is raised now, and they will make damn sure there is no path to power again for anyone they do not approve of if they are given the opportunity to do so. So yes, make sure to rise up today if only platitudes are given. Biden (or any other establishment candidate) must never be allowed to get within touching range of the presidency this election. If it happens, all paths will be closed besides an armed revolution. Which might eventually happen if we do go down that road, but it will end in a lot more suffering than what the price would be right now.

1 ▼ Real talk - two most likely scenarios:

Scenario 1

Mike Pence is retiring

He does Mitch's bidding

It's over

Next steps - war, etc. depends on how serious people are about this shit. My guess is most people have lives mortgages, kids, etc. and can't afford war. Also the military+cops will win the war because they're better armed. Without defections from law enforcement and military, the war is over.

Scenario 2

Mike Pence is based

He accepts objections, works with the objection caucus

Objections lead to debate in 2 houses

Motion to decertify AZ,GA,MI,PA,WI all fail - 8-10 hours of debate

Biden wins

It's over

Next steps - war, etc. depends on how serious people are about this shit. My guess is most people have lives mortgages, kids, etc. and can't afford war. Also the military+cops will win the war because they're better armed. Without defections from law enforcement and military, the war is over.

If you guys are still expecting some magic last minute evidence, guys - I wish you were right, but you aren't - watch the President speaking, he has no new evidence. This is a standard stump speech.

Of course there are also scenario 3,4,5...N which are not so likely. The chance of anything happening in all of those tends towards zero with every passing day. It's January 6, there are 2 weeks left. 4 of those days are holidays.
